

Driving restrictions, goods transport, 2017 Belgium

There are no driving restrictions on goods vehicles at weekends or on public holidays.

Abnormal load transports

Motorway and other road traffic bans

Movements of abnormal loads with a width exceeding 4.00 m or length exceeding 30.00 m are prohibited from **06h00 to 21h00**.

On motorways with less than 3 lanes along the lines followed, with the exception of access and exit lanes marked by a panel F5 on motorways with more than 3 lanes, movements of abnormal loads with a width exceeding 3.50 m are prohibited from **06h00 to 21h00**.

Movements of abnormal loads are prohibited on public holidays: 1 January, Easter Monday, 1 May, Ascension Day, Whit Monday, 21 July, 15 August, 1 November, 11 November and 25 December. The prohibition applies from **16h00 on the previous day to 24h00 on the same day**.

Movements of abnormal loads are prohibited from **Saturday 12h00 to Sunday 24h00**, except for cranes vehicles not exceeding a mass of 96t, or a width of 3.00m.

Movements of abnormal loads are prohibited from **07h00 to 09h00 and from 16h00 to 18h00**, except for abnormal load vehicles not exceeding a mass of 60t, a width exceeding 3.5m or length exceeding 27.00m, provided that the license does not provide for prescription that may have an impact on traffic flow on the route by imposing special maneuvers or limiting the speed of the abnormal load vehicle.

Driving bans mentioned in the foregoing paragraphs, as regards roads other than motorways, do not apply to agricultural vehicles.

The permit may contain specific provisions derogating from the provisions above.

Traffic conditions

Movements of abnormal loads are prohibited when there is snow or ice on the road and in case of fog, snowfall or rain reducing visibility to less than 200m.

The user or driver of the abnormal load vehicle or, where applicable, the traffic coordinator, must inspect the selected route at least 5 calendar days before the planned abnormal load transport.

Driving restrictions, goods transport Belarus

There are no driving restrictions on international HGV traffic on Sundays or on public holidays.

Temporary spring restrictions - **update**

~~In accordance with the Republic of Belarus' Ministry of Transport and Communications Decree №3 dated 28 February 2017, temporary axle load restrictions for heavy goods vehicles between 6t and 9t in Belarus will be in effect from 15 March to 25 April 2017.~~

~~The map showing the public roads concerned is accessible [here](#).~~

~~Temporary restrictions do not apply to:~~

~~– vehicles, self-propelled vehicles transporting passengers, live animals, flowers, humanitarian aid, concrete and asphalt mixes, bitumen used for the road works, dangerous goods, perishable goods, grain, animal feed, rapeseed;~~

~~– vehicles, self-propelled vehicles, carrying out activity on maintenance, repair and development (construction, renovation) of public roads;~~

~~– vehicles, self-propelled vehicles, transports related to the prevention and elimination of emergency situations and the consequences of accidents.~~

Please note that, on 12 April 2017, the temporary restrictions of loads on the axis of vehicles, self-propelled vehicles with respect to the republican public highways in the spring period have been abolished.

The Resolution № 10 of the Ministry of Transport and Communications of the Republic of Belarus dated April 03, 2017 "On Amendments to Resolution № 3 of the Ministry of Transport and Communications of the Republic of Belarus dated February 28, 2017 " came into effect on April 12, 2017 at 00:00 a.m., providing for the removal of imposed temporal restrictions for the axle loads of the vehicles, self-propelled vehicles with respect to the Republican public roads in the spring period.

The above-mentioned Resolution was published on the National Legal Internet portal of the Republic of Belarus under this link: <http://www.pravo.by/document/?guid=12551&p0=W21731944&p1=1&p5=0>

Temporary summer restrictions

In accordance with the Republic of Belarus' Ministry of Transport and Communications Decree №3 dated 28 February 2017, temporary axle load restrictions for heavy goods vehicles on motorways in Belarus will be in effect from 23 May to 31 August 2017.

Therefore, from 23 May 2017 during daylight hours (from 11:00 to 20:00 inclusive) when air temperature exceeds +25°C, traffic on motorways with asphalt concrete surfaces will be limited for vehicles with loads of not more than 6t on a single axle.

Temporary restrictions do not apply to:

- vehicles, self-propelled vehicles transporting passengers, live animals, flowers, humanitarian aid, concrete and asphalt mixes, bitumen used for the road works, dangerous goods, perishable goods, grain, animal feed, rapeseed;

- vehicles driving on toll roads;
- vehicles engaged in the carriage of animal waste for recycling and (or) processing;
- vehicles, self-propelled vehicles, carrying out activity on maintenance, repair and development (construction, renovation) of public roads;
- vehicles, self-propelled vehicles, transports related to the prevention and elimination of emergency situations and the consequences of accidents.

Temporary signposts are on motorways giving restriction details. Truck parking areas are intended for vehicles subject to the restrictions. Heavy goods vehicle traffic will be constantly monitored.

The above-mentioned temporary restrictions are due to the fact that at high temperatures the deformation and strength properties of the coatings containing organic binders are being significantly deteriorated.

The asphalt concrete pavement under the influence of high axial transport loads is being deformed, resulting in dents, shifts, sags, hillocks, cavities and deep-rutted roads. Therefore, the decision to restrict the road traffic in the summer period was adopted in order to protect the integrity of the road. It's worthwhile to note that this practice has been implemented in Belarus for more than 10 years. It is accepted as well in many countries with the similar climatic conditions.

This restriction applies to the empty trucks as well.
